THE BLOODY BORDER.

Gen. Hernandez and His Command Under Arrest.

THE CASTILLOS MURDERERS.

Barbarians in new and second-hand clothing and organs at the Armstrong Co's Call and order.

Special to the Gazette.

110 GRANDE CITY, STARR COUNTY, TEX., Nov. 25.—Intelligence just received here from Mier, Mexico, states that Gen. Nieves Hernandez and command were ordered to that city yesterday by Gen. Lorenzo Garcia and Gen. Hernandez was at once placed under arrest by Gen. Garcia, who the same day started the prisoners to the City of Mexico under a large escort. It is also reported that the officers of Gen. Hernandez's regiment were deprived of their arms at the same time.

As a sequel to the finding of the murdered Castillo brothers in the Rio Grande river on the 21st inst., Ramon Santos, Santiago Pena, Ricardo Lopez and Pedro Vasquez passed through Camargo yesterday on their way to Matamoros. They belonged to a state ranger's company, and are said to have been with the Castillo brothers when they were murdered. Raymond Sanchez was banded by his uncle to appear for trial. Their arrest is said to have been by Gen. Lopez's orders from Matamoros. The district judge came to Reynosa from Matamoros immediately after the prisoners reached the former place. It is thought they were arrested for the killing of the Castillos. Santiago Pena escaped to Mexico some months ago just ahead of a warrant for horse theft and joined the rangers after Garcia crossed. The onesiness on the Mexican side is greatly increased by the arrest of Col. Hernandez and it is evident that the government feels the situation is more serious than heretofore believed.

The telegram of the 21st from Washington, reporting to come from President Diaz to Minister Romero, as far as it questions the order for the arrest of Gen. Hernandez and the United States marshals to arrest Garcia and his followers, is deemed wholly without warrant and a slander on active officers and troops.

Use it for Pain, External or Internal. It is a great remedy for Rheumatism, Gout, Neuralgia, Headache, Toothache, etc. Avoid base substitutes for this Genuine.

Part of an Amphitheater Gives Way, the Heavy Timber Falling on a Motley Crowd.

Special to the Gazette.

SAN ANTONIO, TEX., Nov. 25.—J. R. Coleman, an American engaged in business in Guanajuato, Mexico, arrived here today, and brings particulars of an accident which took place in that city last Sunday, resulting in the killing of twelve people and the serious injuring of nine others. Several hundred people had assembled in a built-up arena to witness a fight between two goats, when a part of the amphitheater gave way, the heavy timber falling on the crowd, crushing men and women beneath their weight.

A Pleasing Sense.

Of health and strength renewed and of ease and comfort follow the use of Syrup and Figs, as it acts in harmony with nature to effectually cleanse the system when constipated or bilious. It is sold in 50c and \$1.00 bottles by all leading druggists.

NATURAL TELEGRAPH LINE

Between Two Mountains in the Black Hills Range—Voices Heard from One Range to Another.

Special to the Gazette.

RAPID CITY, S. D., Nov. 26.—A gentleman from Minneapolis, about twenty-five miles southwest of this city, tells a most marvelous tale of a discovery which was made in the Black Hills range. On each side of an intervening valley, twelve miles in width, stand two high peaks which tower above the surrounding mountains and have long been known as landmarks, being called the Twin Peaks. These mountains are fully 10,000 feet high, and stand at least 4,000 feet above the sea level. Only on rare occasions have these peaks been ascended, and but little was known of their topography. Some weeks ago a party of tourists determined to

Cane Mills and Evaporators.

We are now offering the above at extremely low figures, and intending purchasers will find it greatly to their advantage to either call and see us or write for prices.

What the Company Has Done With its Money.

SHE THINKS SHE DOES KNOW.

And Says the Beach Hotel was Built with a Part of a Lady's Money for a Receiver and an Injunction Against a Street Car Company.

Special to the Gazette.

GALESTON, TEX., Nov. 25.—An important suit has been instituted here in the district court by Mrs. Mary F. Boyce of Houston, against the Galveston city street railway company, its directors and the city of Galveston. The plaintiff is the owner of 300 shares of stock in the defendant railway company valued at \$15,000. In her petition she alleges against the directors of said railroad company mismanagement and misappropriation of the funds and income of the company, and charges a wrongful investment of its earnings in other corporations. That at a stockholder's meeting 17,500 shares of stock were wrongfully declared paid up, and that the directors, by voting a large amount of fraudulent stock, have maintained themselves in the management and control of the company's affairs.

The plaintiff further alleges in her bill of complaint that for several directors fraudulently invested \$50,000 in buying stock in the Beach hotel and the Seaside Improvement company and without legal authority advanced over \$14,000 to the company. The last named corporation is practically owned by the railway company's board of directors. The petition further recites the insolvency of the defendant company, and requests the appointment of a receiver and the issuing of an injunction against the company's officers.

In its answer to this bill the charges of wrongful and unlawful action are denied by the street railway company, but the statement of having invested in the building of the Beach hotel is not denied. The company claims that such an investment was extremely beneficial to its interests. The application for a receiver and injunction is now pending before the court.

Hunting a Healing Climate.

DENVER, COLO., Nov. 25.—Herr Herman Fischer of Berlin, Germany, who has been investigating the climate of medium altitude in Colorado, under the practical auspices of Dr. A. J. Meur, for the purpose of furnishing his government practical data of the healing properties of this climate, has been appointed a receiver and the issuing of an injunction against the company's officers.

Dr. Meur has filed many trusts of his government, among other accompanying Professor Koch to Egypt and India in 1883 in that savant's hunt for the germ of cholera. He returned to Berlin and resumed his pathological labors, but accompanied Dr. A. J. Meur to Colorado for the purpose mentioned. Dr. Meur has furnished Dr. Fischer with a supply of the best of the chrysomelid Koch safety lymph, and Dr. Fischer is establishing a despatch station.

Children for Pitcher's Castoria.
